EXO-HX1: The Innovative Real HX1 Full Face

The real HX1 full face comes here at last. Scorpion's "neo-retro" philosophy presents various innovative functions and brings sleek and stylish shell design while keeping classic streetfighter look. The patented, slim and small magnetic mechanism used for face shield movement offers smooth shield opening, and helps to realize slender shell line.

The helmet can be changed to an off-road style helmet with peak visor installed and the face shield removed. It can be changed its look as classic street fighter full face also with peak visor removed and side covers installed. The eyepoint is large enough to accept most goggles. In addition, the interchangeable mouth vent bundled in the package provides different look. This full face helmet can be made as another transformer thanks to Scorpion's innovative spirit.

Feel the brand-new differences in design and fitment. VX-16 Air inherited the great features of VX-15 series such as AirFit, large eyepoint, removable mouth vent, and peak visor extension, while it offers improved fitment with laser-cut 3D contoured cheek pads, larger chin room to breathe more comfortably, and lighter weight thanks to Scorpion's advanced thermoplastic shell. Also it does not miss the a-la-mode design trend in current offroad helmets. The VX-16 Air will write another page in Scorpion's offroad helmet history.
