ADV-1

Introducing the ADX-1, a versatile modular Adventure Touring helmet. It has features and quality that you would expect to pay three times more for. The ADX-1 can be used as a full face ADV helmet with external peak visor attached, or the peak visor can be removed and you have an aerodynamic touring helmet.

Our oversized eye port is extremely wide for greater peripheral vision and downward visibility, and the modular chin bar can be conveniently flipped up when you stop to get gas or ask for directions. The internal drop down Speedview® sunvisor and KwikWick® II liner will keep you comfortable all day long even as lighting conditions change throughout the day. Additionally, the no-fog Pinlock® MaxVision® face shield can be removed and you can use the ADX-1 as a dirt helmet with goggles for off-road use. Two shell sizes made of Advanced LG® Polycarbonate and dual density EPS, result in a helmet that is light weight, strong, and protective.
